

I -3 Specifications

Equipment name	Solder Paste Softener
Model	SPS-5A
External dimensions	540 (W)×540 (D) ×683 (H) <mm> ※ Except protrusion
Mixing material	Solder paste
Cartridge size	43Ø cartridge 8oz
Weight adjustment	Manual * The weight of the two cartridges must be the same.
Rotating speed	Revolving speed: Max. 600rpm Spinning speed: 1/6 of the revolving speed
Operation timer	Settable max. 60 minutes
Safety mechanism	Door lock during operation Stop when abnormal vibration occurs
Memory function	Allow to memorize settings. (Max. 10 items)
Power source	230V AC (±10V), 50/60Hz
Operating environment	10 to 40°C, 20 to 80%RH (No condensation)
Power consumption	300 VA
Weight	Approx. 50kg

※ The specifications and external appearance are subject to change without notice.
