

The Malcom RCX Series of reflow oven profilers and monitors utilizes a modular system to offer a variety of monitoring tools. They all use the RCM-S Memory Unit as a base. The following configurations can be used:

- 1) RCM-S can be used alone as a temperature profiler.
- 2) RCM-S + RCM-W for convection velocity monitoring.
- 3) RCM-S + RCM-C for in-oven camera recording.
- 4) RCM-S + RCM-O for oxygen concentration monitoring.

Malcom RCX-1 Package Includes:

- RCM-S Memory Unit
- Heat Resistant Case & Adjustable Conveyor Attachment.
- RCF-3 Cooling Unit
- TMR-1 Software
